Don't play a guessing game. Call for a CDPHP® Price Check™!

Shopping around is about gathering information and making educated decisions. We think you should have that option when it comes to health care. That's why we created CDPHP® Price Check, a new cost estimator service that gives you more planning power when it comes to your health care expenses.

Available to all high deductible plan members beginning September 1, 2017, CDPHP Price Check is designed to create cost transparency by giving you estimated costs on a range of health care services before you choose a provider. Just call CDPHP at **(518) 641-3760** and a member services representative will provide an estimate based on the type of service and locations where it can be performed. Armed with this information, you'll have more control over your health care as you compare prices and plan for expenses in advance of a service rather than when you receive the bill.

We encourage you to take the mystery out of health care costs by using CDPHP Price Check.
